
UBC UK 2026-2027 Undergraduate Challenge

The next edition of the UBC Undergraduate Challenge starts in October and is run over two rounds. The format and content are designed to develop the employability and enterprise skills employers are looking for.

2-Round Format

The UBC UK is run over two rounds. Round 1 is run online via the UBC portal on the Learning Dynamics / Simulation Space platform. Teams collaborate, input their decisions and results are published as per the timetable below. Approximately the top 30% of teams from Round 1 go through the Round 2 Grand Final.

Key dates

Entries open: June 2026

Entries close: 5th November 2026

All entries will be confirmed progressively up to the closing date.

Please note: The UBC Global Masters Postgraduate Challenge has a different timetable from the Undergraduate Competition.

Round 1 - Online: October to December

Logins & Resources

Educators, Team Leaders and Team Members, including nominated team Mentors, will have access to the UBC simulation platform used in Round 1 via logins which will be provided to registered universities. All resources are made available online and can be downloaded from the simulation platform. The Team Brief and Participant Guide contains all the information necessary to take part in the UBC.

When you know your Team Leaders, you can upload their **name/s and email address/es** by logging into the UBC portal and selecting Manage Teams. The UBC simulation portal will automatically email Team Leaders their logins when you have submitted their details.

If you want your teams to participate in the optional Trial Trading Period (TTP), you should upload your Team Leader details prior to the TTP commencement (please see detailed timetable below).

When **Team Leaders** have their logins, they input their Team Member details. The simulation platform emails Team Members their logins, so all team members have access to the simulation platform.

Round 1: Structure

The UBC UK Round 1 starts with an optional Trial Trading Period (TTP). The TTP is a practice round for teams to get used to the briefing resources and decisions. The Trial Trading Period (TTP) results do not count towards the final result. Results only count towards the final result from Trading Period 1 onwards.

While we encourage teams to complete the TTP, it is not essential in order to compete in Round 1 of the UBC, so teams who enter late can start with Trading Period 1.

For each trading period, decisions can be uploaded between the open date/time and the close date/time. Results will be published before the next trading period opens.
